

*Dear colleagues from UNIWERSYTET WARSZAWSKI,*

I represent and I am writing on behalf of EUROSUD International Youth Mobility based in *South of Italy, Bari*.

*We got to know your KA2 project proposal through the Erasmus+ database for the best practice, and we would be really interested to join the opportunity and support you for this upcoming deadline 03-11-2021 12:00:00 (Brussels time).*

For this reason, I would like to introduce our organization. Our **ID number** is: **E10185527**, our **EVS accreditation number** is **H.R.C. 2016-1-IT03-KA110-009279** and we have all needed documents uploaded on the ECAS portal. Moreover, in the file attached at the end of this mail you can find our partner identification form /PIF/ with all the necessary information about our experience and operational capacity.

The legal address of EUROSUD is in Triggiano, a small city in the rural area near Bari (region Puglia). EUROSUD was established by a number of experts in 2013 with the goal to offer support, help, services and counselling in the areas of development of civil society and democratic institutions, civil values and non-formal education for all citizens (especially for young people) in our local community. To achieve its goals EUROSUD organizes events (round tables, debates, seminars and workshops) about activism, education, promotion and exchange regarding human rights, development of creativity, innovation, entrepreneurship and sustainable development (of civil society).

As an organization we have taken an active part in Erasmus+ projects since 2014 and we have implemented several projects as you can find in detail in the document attached.

Despite difficult times as an organization we are following as always our mission on truly connecting young people no matter where or who they are and providing opportunities in terms of **volunteering, training and internship**.

Kindly wait for your feedback.

Best regards,

Kristián Kalamen  
Partnership coordinator

We would like to accept students from different kinds of areas like Business administration, International relations, Linguistic studies, etc. Minimum period for internship is 2 month but it also depends on agreement between students and organization. Furthermore, we mainly speak in our organization in the English language. Subsequently, we do not take any fees for hosting students because Erasmus+ project provides them with a grant for doing an internship.
